Clinton County Probation Programs

The Department provides the following programs and specialized services:

- **Treatment Court** – This Program is a hybrid of both Drug and DUI Court and was implemented on July 1, 2014. The Program has three (3) phases, each lasting four (4) months. Defendants receive treatment, have frequent Court appearances, are placed on SCRAM or GPS and required to perform community service. Upon completion of the Program, the defendant is placed on aftercare supervision for up to a year followed by placement in a general supervision caseload.

- **Veterans Court** – The Program is designed for local veterans involved in the Criminal Justice System. Veterans must complete four (4) phases, each lasting three (3) months. The program mimics Treatment Court with involvement from our local Veterans Affairs Office.

- **MAT Program** – This Program treats opiate addicts through medication assisted treatment like Vivitrol, Suboxone, and Methadone. The participant must attend out-patient counseling and is subject to drug testing by the treatment provider and Probation Department. Defendants report frequently for pill counts to ensure that the pills are not being sold.

- **Day Reporting Center Program** – Implemented in 2016 after the Work Release Program at the Correctional Facility was discontinued. As an alternative to incarceration, the Court has the option to sentence a defendant to day reporting for a period of time. The length of the program is typically three (3) to six (6) months.

- **Pre-Trial Program** – Magisterial District Judges can make a condition of a defendant’s bail to be under the supervision of the Probation Department. Many of these cases are high risk defendants with drug or alcohol addictions.

- **Returning Citizen Program** – This program is operated through the Clinton County Housing Authority and offers suitable housing for homeless inmates at the Clinton County Correctional Facility. Defendants must agree to participate in the program and are closely monitored by the Probation Department.

- **Domestic Violence Fast-Track Program** – This is a pre-trial program that defendants arrested for a domestic violence crime can participate in with the opportunity to have the charges dismissed. The defendant must successfully complete the Men Against Abuse Program (MAAP).

- **Re-entry Assessment Team** – Implemented in 2010, this initiative is a collaboration with the Clinton County Prison. One (1) officer is assigned to participate as a team member in planning for the re-entry needs of the defendant. As part of parole planning, the officer recommends appropriate conditions to the Court. The Team meets once per month to staff parole cases.

- **Community Service Program** – Probation Officers approve placements and monitor compliance of defendants who are Court-ordered to perform community service hours. Many community organizations participate in the Program. The Department also participates in the Adopt a Highway Program. Participation in community service projects are also used to offset fines and costs.
- **Intermediate Punishment and Restrictive Intermediate Punishment Program** – This Program is for defendants sentenced to Intermediate Punishment that are Level 3 and 4 on the Sentencing Guidelines. Most of the defendants are convicted of DUI’s and are placed on SCRAM electronic monitoring and receive treatment.

- **Driving Under the Influence (DUI) Intervention Program** – In January 2013, the Department assumed the responsibility of this Program. Defendants are scheduled for Court Reporting Network (CRN) evaluations and Alcohol Highway Safety School classes.

- **Sex Offender Program** – This Program consists of individual counseling with a sex offender therapist. The goal of the Program is to deter convicted sex offenders from re-offending. The Program is offender fee based.
