The Department provides the following programs and specialized services:

- **Breaking Barriers Program** – This Program is ten (10) consecutive weeks in length and is funded entirely by the Department. This Program provides offenders with information on employment, effective job interviewing, fiscal management, and how to be successful in the community. The adult probation officers conducting this Program received certification to teach it.

- **Electronic Monitoring/House Arrest** – This Program is utilized as an alternative to incarceration for those offenders who have violated conditions of their probation/parole. Offenders are monitored electronically and must remain within their homes at all times, unless approved leaves are granted by the adult probation officer for specific dates and time periods.

- **Work Release Program** – The goal of this Program is for inmates to maintain their current employment or obtain employment while serving a sentence of incarceration. The Department verifies employment and supervises inmates granted work release status.
