The Department provides the following programs and specialized services:

- **Alcohol Highway Safety School (AHSS) Program** – The Department operates this Program. The Program is certified by the Department of Transportation through the Pennsylvania Driving Under the Influence (DUI) Association. The Program is responsible for facilitating the AHSS Program to first and second time DUI offenders. Instructors are certified to teach the classes. The Program is, also, responsible for completing Court Reporting Network (CRN) evaluations on all DUI offenders. CRN evaluators must, also, be certified.

- **Cognitive Life Skills Program** - Designed for medium to high-risk offenders, the Program offers an extended and comprehensive educational process to help participants overcome negative behavioral patterns, and enable them to be more productive in their environment. Through activity enhanced components targeting criminogenic needs, participants learn how to establish positive, goal-directed behavior patterns and understand the process necessary to change negative behavior. In conjunction with the cognitive life skills, facilitators use the Real Colors Personality instrument to maximize the effect of positive, pro-social change in offenders. Offenders can be referred to the group as a condition of supervision, as an alternative to returning to Court for violations, or on a voluntary basis.

- **Collection of Court-Ordered Fines, Costs, Restitution and Act 35 Offender Supervision Fees** – The Department collects all Court-ordered Fines, Costs, Restitution, and Act 35 Supervision Fees.

- **Community Service Program** – All Driving Under the Influence (DUI) offenders and some non-DUI offenders are ordered to perform community service work as part of their sentence. One (1) adult probation officer is responsible for oversight of this Program. The Department is responsible for recruiting and maintaining a list of all appropriate work sites.

- **Intermediate Punishment Program (IP)** – This Program targets Driving Under the Influence (DUI) offenders. The offender serves one-half of his or her jail sentence and is placed on radio frequency electronic monitoring or GPS, and Secure Continuous Remote Alcohol Monitoring (SCRAM) for the remainder of the sentence. Offenders are required to complete drug/alcohol treatment as well as community service.
