The Department provides the following programs and specialized services:

- **Consolidated Arraignment, Plea, and Sentencing (CAPS) Program** – The adult probation officer collects offenders’ fingerprints and photos, obtains offenders’ social histories and investigates offender eligibility for the Program. The CAPS Program is designed to expedite the case(s) of selected offenders from date of arrest to disposition to within sixty (60) days. The Program, also, screens for eligibility for Intermediate Punishment.

- **Cost and Collection Program** – The Department is responsible for the collection of all Court-ordered moneys.

- **PikeCare Intermediate Punishment Program** – This intensive supervision program targets Level 3 & 4 non-violent offenders who would otherwise be incarcerated and who demonstrate a need for drug and/or alcohol treatment. Offenders are monitored through Electronic Monitoring, GPS, TAD, and/or Sober Link alcohol monitoring in order to ensure program compliance.

- **Pre-Trial Bail** – Bail reports are prepared for use by the Court for all defendants charged with a felony or a misdemeanor.

- **Work Release / Electronic Monitoring Program** – There is on-going interaction and coordination between the Work Release Project Officer and adult probation officers who investigate the legitimacy of employment and supervise those offenders placed in the Program. Offenders are placed on electronic monitoring as part of the Program.
