The Department provides the following programs and specialized services:

- **Community Service Program** – Offenders can be court ordered or referred to the Program by the adult probation officer. The Community Service Program Coordinator places the offender with an appropriate agency and monitors the offender for compliance. The Coordinator advises the adult probation officer of the progress and when the offender has satisfactorily completed the community service obligation.

- **Driving Under the Influence (DUI) Court** – This Problem Solving Court was implemented in September 2013, with funding from a PennDot grant. The Program is three (3) phases, each lasting four (4) months. Offenders are subject to alcohol monitoring, treatment, and strict supervision. The level of supervision is decreased as the offender completes each phase.

- **Drug Court** – This Problem Solving Court was implemented in May 2015, as an Intermediate Punishment Program with treatment funded through a grant from the Pennsylvania Commission on Crime and Delinquency (PCCD). The Program is structured similar to the DUI Court. In addition to Level 3 and Level 4 Sentencing Guideline offenders, Level 2 offenders are, also, eligible. This is the result of independent funding available through the County Human Services Department.

- **Electronic monitoring** – The Department uses electronic monitoring as a condition of probation and as a sanctioning tool.

- **Women’s Rehabilitation Center** – This is a collaborative effort between the Potter County Prison, Human Services Department and Adult Probation Department. The Program was formally approved in April 2015, and will initially target twelve (12) offenders. It can be used as a sentencing alternative or as a reentry plan. It can, also, be used as a resource for violators as an alternative to incarceration. A caseworker and an adult probation officer are assigned to the Program. Treatment focuses on women’s issues, substance/alcohol abuse, education, employment and parenting skills. Community service will, also, be a part of the Program.
