The Department provides the following programs and specialized services:

- **Adult Treatment Court** – The Somerset County Court of Common Pleas instituted a voluntary Adult Treatment Court based on proven national research and program models. The Treatment Court targets offenders who are medium/high risk/needs through an assessment process. This provides the participant an opportunity to pursue treatment for their addiction(s), while productively addressing associated needs.

  The Treatment Court follows the post plea, pre-disposition model. Participants enter a formal guilty plea, then sentencing is deferred pending completion of the Treatment Court Program. Upon successful completion of the program, the participant’s charges may be reduced, dismissed or the District Attorney’s Office may seek to expunge the pertinent charges as previously agreed, subject to Court approval.

- **Bonds Program** – The Department provides supervision of offenders released on bail pending disposition of their criminal charges.

- **Day Reporting Center** – The Day Reporting Center is funded through the Office of Justice Programs from October 1, 2015 to September 30, 2018. The DRC will provide a centralized location of services to the residents of Somerset County. The multitude of services, as well as transportation, will increase the compliance with conditions of probation/parole. The DRC will provide coordinated services, accountability and a structured support system for all participants.

- **Intermediate Punishment House Arrest/Electronic Monitoring Program** – This Program is used for offenders sentenced by the Court to a term of Intermediate Punishment with home confinement and administered by the Department. Global Positioning System monitoring, through Behavioral Interventions Incorporated, is utilized to track offender movements. The Department maintains an Intermediate Punishment Coordinator/Supervisor who oversees the Program and a Probation Aide/Intermediate Punishment Technician.

- **Work Release Program** – The Department maintains full control of the County Work Release Program at the Somerset County Prison, including investigation and approval of work sites/work hours, petitioning the Court for inmate placement into the Work Release Program, site visits and drug testing. The Department, also, investigates inmate furlough requests for the Court. The Department maintains an Institutional Parole Unit Supervisor who oversees this Program, while an Institutional Parole Officer is assigned to conduct the day to day tasks required of the Program.

In addition to the above Programs and Specialized Services, the Department, also, maintains the following specialized caseloads:

- Sexual Offender/Special Caseload
- Accelerated Rehabilitation Disposition (ARD) Caseload
- Inter-county and Interstate Transfer Caseload
- Pre-sentence Investigation Officers/Unit
- Collections Officer (Probation Aide)
- Victim Liaison (Probation Aide)
- Electronic Monitoring Caseload
- Intake Officer
- Department-provided Drug & Alcohol Counselor at the Somerset County Jail
