The Department provides the following programs and specialized services:

- **Administrative Reporting Program** – This is referred to as “Call Track Supervision.” Offenders monitored administratively, are required to call a toll-free number at designated times and answer a series of pre-recorded questions. If any negative answers are received, the Department receives a written notification. Interstate and Intercounty transfer cases, also, participate in this Program.

- **Alternative Sentencing Program** – This is a Restrictive Intermediate Punishment Program for Level 3 and Level 4 Sentencing Guideline offenders. Offenders are assessed to determine their drug/alcohol treatment needs and eligibility.

- **Community Service Program** – One (1) adult probation officer is assigned to oversee the Department’s Community Service Program. Typical examples of community service assignments include: litter pickup and cemetery grounds maintenance. Probation Officers drive around when service is scheduled to verify that the work is being done.

- **Driving Under the Influence (DUI) Classes** – Chief McKee runs the Alcohol Highway Safety School. All offenders either convicted of or in pre-trial diversion for a DUI offense in Warren County attend the Alcohol Highway Safety School, with the exception being those offenders who are sentenced to a state correctional institution.

- **Electronic Monitoring and House Arrest Program** – Two (2) adult probation officers monitor offenders assigned to this type of supervision. There are two (2) types of Electronic Monitoring (EM) utilized: 1.) Radio Frequency EM and, 2.) Global Positioning System Passive. The Department, also, uses the Secure Continuous Alcohol Monitoring System (SCRAM) on some house arrest offenders.

- **Sex Offender Supervision** – This Program provides proactive supervision and treatment of convicted sex offenders to prevent recidivism. One (1) adult probation officer specializes in the supervision of these offenders. All sex offenders are mandated to attend outpatient counseling.

- **Treatment Court** – Two (2) adult probation officers are assigned to the Warren County Treatment Court. Treatment Court is a specialty Court for offenders who are in need of treatment for substance abuse, mental health problems or both. It consists of four (4) phases, each twelve (12) weeks in length. Each phase consists of meeting with the Court and the Treatment Court Coordinator once per week on a decreasing basis, from twice a week during phase 1, to twice a month during phase 2, to once a month during phase 3, and on an as-needed basis during phase 4. Additionally, attendance at treatment and self-help/recovery groups is required.
