ADULT OFFICE PROGRAMS

- **Community Service Program** – This Program coordinates the placement of defendants with participating agencies. Clients, who cannot be placed, participate in work crews run by the Department. The Department entered into an agreement with the PBPP to accept state supervised offenders who are required to participate in community service. The State referred offenders have demonstrated good attendance and positive work results.

- **Day Reporting Center Program** – This Program provides the Court with an intermediate punishment sentencing alternative for drug/alcohol dependent Level 3 and Level 4 Sentencing Guideline offenders. The six (6) month Program consists of daily reporting, curfews, voice tracking, drug screening, substance abuse treatment, employment counseling, and community service.

- **Driving Under the Influence (DUI) Court** – The target population for this Program is the second offense, tier III, and third offense DUI offender. Defendants must be diagnosed with a drug and/or alcohol dependency by a certified drug and alcohol evaluation. The Program utilizes comprehensive treatment, education, offender accountability, and intensive supervision.

- **Heroin Opioid Wellness Court** – This Program is an intensive judicially monitored community-based treatment program for opioid abusing non-violent offenders with the goal of reducing drug use and crime. There are three (3) phases of the Program that includes assessment/treatment plan development, self-awareness, and personal development. Court is held during normal working hours and in the evenings to accommodate offender work schedules.

- **Electronic Monitored House Arrest and Secure Continuous Remote Alcohol Monitoring (SCRAMx)** – This Program targets non-violent offenders as an alternative to incarceration. The cost is twelve dollars ($12) per day and is borne by the offender for the ankle bracelet and monitoring station.

- **Employment Training and Counseling Services** – This Program is a joint effort of the Department, the York County Prison, and York County Domestic Relations Department. Classes meet twice a week for eight (8) weeks. Topics include resume building, interview skills, and job search techniques. Offenders must complete ten (10) hours of computer lab, a job search form each week, and meet with instructors weekly.

- **Impact of Crime Classes** – This Program meets once per week for three (3) weeks and concentrates on the impact crime has on the victim and society. Sessions are designed to have offenders understand the emotional, physical, and financial losses suffered by victims of crime. Each session is a combination of group activities, videos, and discussions to encourage awareness of how crimes affect others.

- **kNOw MORE** – The “kNOw MORE” program offered is an educational batterer’s intervention service comprised of a combination of material from the “Alternatives to Domestic Violence” workbook written by Kevin A. Fall and Sharreen Howard and the Duluth, Minnesota model. For twelve weeks, men in the program will meet for two hours with group facilitators for group-based and interactive activities designed to confront, challenge, and change controlling behaviors and abusive patterns.

- **Mental Health Court** – This Program is an alternative to incarceration for offenders with serious mental illness. The Program promotes public safety and improving the quality of life for offenders by establishing mandatory, comprehensive, community-based treatment and services developed by the partnership between the mental health and criminal justice communities.
Moving On – A Program for At-Risk Women provides women with alternatives to criminal activity by helping them identify and mobilize personal and community resources.

- Flexible and open-ended intervention program, allowing for continuous intake
- Draws on the evidence-based treatment models of relational theory and cognitive-behavioral therapy
- Ideal for group or individuals in community corrections as well as institutional settings

Program content is organized around four main themes:

1. encouraging personal responsibility and enhancing motivation for change
2. expanding connections and building healthy relationships
3. skill enhancement, development, and maintenance
4. relaxation and stress management skills

Operation Night Light – This Department and police collaboration started in 2005, through a grant from the Pennsylvania Commission on Crime and Delinquency (PCCD). The County continued the program after grant funds were exhausted. Flex time is used to enable the police or deputy sheriff to accompany the adult probation officer during contacts with high-risk offenders during non-traditional hours.

Project Sister – The Department, along with local police, conduct sweeps of areas where there is a proliferation of prostitution. During these sweeps, information on local services to assist women in need are provided.

Reentry Program – The York County Department of Probation Services Reentry Program aims to reintegrate individuals back in to the community by providing necessary services and support for their success. Individuals eligible for the program must be sentenced to a period of incarceration of not less than four (4) month and have a remaining balance of supervision of at least 12months. This will allow the time needed to complete case planning, identify needs, and successfully work towards meeting established goals.

This is a voluntary program with incentives for early parole for entering and successfully completing the jail portion of the program. Both males and females are eligible to apply and participate in the Reentry Program on a probation, parole, or intermediate punishment revocation under a permanent detainer, bench warrant, or probation/parole warrant signed by a judge. Prior to applying, men and women must have completed the prison’s Risk Screening Tool (RST) with prison intake staff within 3 to 7 days of admission and scored 5 or above. Women must have completed the WRNA tool and score medium or higher. Men must be assessed using the ORAS CST and must score moderate to high.

Participation in the program is voluntary, unless ordered by the Court. However, all participants are required to sign reentry conditions and abide by general probation conditions. They are also required to engage in programming as referred by the reentry officer.

Target 25 Bail Program – This is a Supervised Bail Program used to reduce prison overcrowding through identification and placement of non-violent offenders who are unable to otherwise meet a monetary bail. Offenders are placed in appropriate supervision levels after a risk assessment and monitored via Secure Continuous Remote Alcohol Monitoring (SCRAMx) prior to trial. Appropriate offenders are referred to specialty programs such as Drug Treatment Court, Driving Under the Influence (DUI) Court, or Intermediate Punishment as alternatives to mainstream case flow.
Veterans Treatment Court – This Program is an alternative to incarceration for current or former members of any branch of the military who are eligible for veteran’s benefits and suffered a service related trauma. The Program utilizes comprehensive treatment (coordinated with the United States Department of Veteran’s Affairs), education, offender accountability, and intensive Court supervision.

Victim Impact Panel – This one (1) session Program, offered monthly, targets offenders convicted of a drug/alcohol related offense and is a condition for all offenders placed on Accelerated Rehabilitative Disposition (ARD) for Driving Under the Influence (DUI). A panel comprised of three (3) victims relate how crime has impacted their lives and the lives of their families. Two (2) adult probation officers and a representative from the District Attorney’s Office moderate the Program. Participation is, also, open to spouses of the offenders if they desire to attend.

Courage to Change - The Courage to Change Interactive Journaling® System is an evidence-based supervision/case management model developed in collaboration with several United States Probation Offices. Through the use of this cognitive-behavioral Interactive Journaling® System and interaction with their support team, participants address their individual problem areas based on a criminogenic risk and needs assessment. Implementation is flexible and can be customized based on risk, responsivity and programming needs. By personalizing the information presented in the Journals to their own circumstances, participants will develop a record of their commitments and progress throughout probation and a roadmap to success in their efforts to make positive behavior change.
